	Name	Size	Modified
..			
.Rhistory		0 B	May 14, 2018, 2:16 PM
project.Rproj		205 B	May 14, 2018, 2:16 PM

The screenshot displays the RStudio IDE interface. The top menu bar includes File, Edit, Code, View, Plots, Session, Build, Debug, Profile, Tools, and Help. The top toolbar contains icons for adding files, saving, printing, and navigating to a file/function, along with a search bar and an 'Addins' dropdown. The R version is 3.4.4.

The main editor window shows a data frame named 'example' with two columns, 'V1' and 'V2', and four rows of data. The data is as follows:

	V1	V2
1	1	5
2	2	6
3	3	7
4	4	8

Below the data frame, it indicates 'Showing 1 to 4 of 4 entries'.

The console window at the bottom shows the following R code being executed:

```
> example <- matrix(c(1, 2, 3, 4, 5, 6, 7, 8), nrow=4, ncol=2)
> View(example)
> |
```

The Environment pane on the right shows the 'Global Environment' with a search bar. It lists the 'example' data frame with dimensions 'num [1:4, 1:2]' and values '1 2 3 4 5 6 7 8'. The Files pane below it shows the current directory structure: '/ > / > cloud > project'. It lists files and folders: '..', '.Rhistory', and 'project.Rproj', along with their sizes and modification dates.

The screenshot shows the RStudio IDE interface. The top menu bar includes File, Edit, Code, View, Plots, Session, Build, Debug, Profile, Tools, and Help. The toolbar below the menu bar contains icons for file operations and a search bar. The main editor window displays a script with the following code:

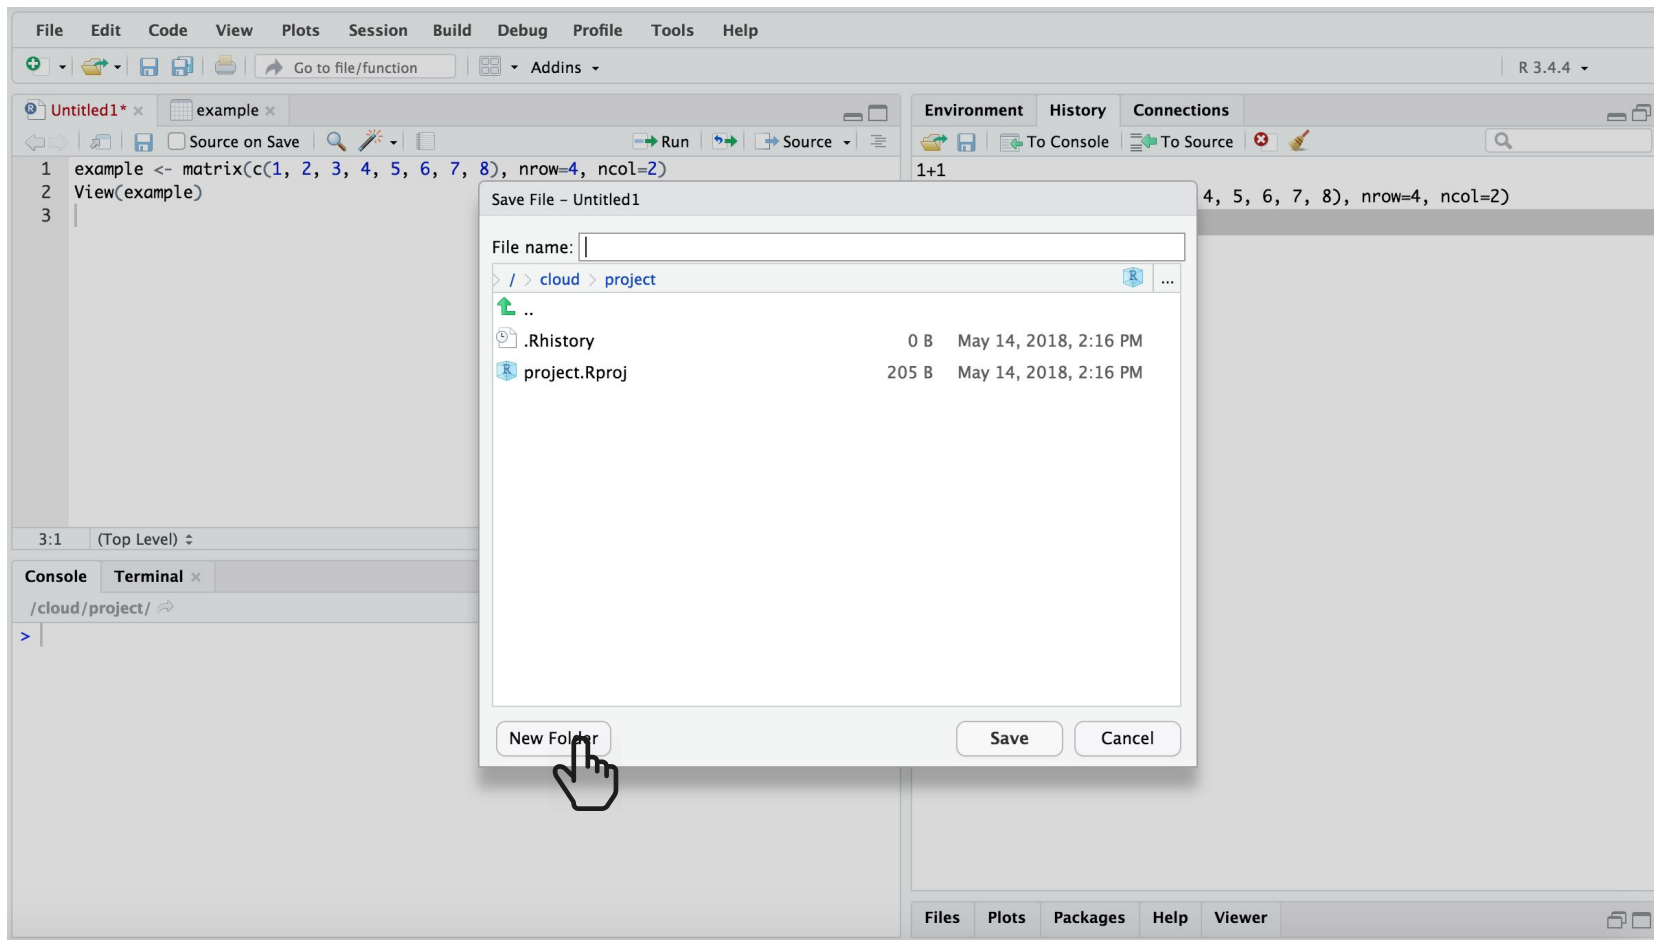

```
example <- matrix(c(1, 2, 3, 4, 5, 6, 7, 8), nrow=4, ncol=2)
View(example)
```

The Environment pane on the right side of the window shows the variable 'example' as a 4x2 matrix. The Console pane at the bottom shows the execution of the code:

```
> example <- matrix(c(1, 2, 3, 4, 5, 6, 7, 8), nrow=4, ncol=2)
> View(example)
> |
```
